

REMARKS

This paper is responsive to the Notice of Non-compliant Amendment mailed 10th July 2006.

Examiner Sisson correctly points out that the substitute specification previously supplied by the applicant (13th October 2005) was not in compliance with 37 CFR 1.125(b). A new substitute specification is not submitted herewith, but an amendment to the specification is made instead. Since the substitute specification previously submitted was non compliant, it is understood that the specification of record is the original specification filed 31 October 2003. The current amendments are made with relation to the original specification filed 31 October 2003.

The specification has been amended to remove all embedded hyperlinks as requested by the examiner in the Office action mailed 03/09/2005.

The Claims as currently pending are also presented with the correct status identifiers as requested by the examiner in the Office action mailed 01/23/2006. This claim set reflects the election in response to the Restriction Requirement mailed 03/09/2005 to which Group I, claims 1-4 and 16 were elected. Claims 5-15 are withdrawn.

CONCLUSION

In view of the above amendments and remarks, it is requested that the examiner reconsider the claims. If a telephone conference would help, please contact the undersigned.
